

STEEL TANKS

We are continuously improving ourselves in pressurized steel tank production with the implementing new technologies since 1997.

We make smooth production which comply with to TSE (Turkish Standart Institute) standards with our new submerged arc welding machine and new cylinder. We are producing tanks up to 3000 mm in diameter and 12000 mm in length with our high technology machines. We can produce St-37 carbon steel and SS304-SS316 stainless steel tanks.

Also we are implementing CTP, EBONITE, GALVANISE coatings inside of the tanks according to customer requirements.

ESLI ST-37 EPOXY PAINTED AND STAINLESS STEEL TANKS

CODE	DIAMETER (mm)	CYLINDRIC HEIGHT (mm)	THICKNESS OF CYLINDER (mm)	THICKNESS OF DOME (mm)
